

Attention Veterans Needing Transportation to Doctor's appointments.

We unfortunately are having to schedule VA Transportation rides for only Monday, Wednesday and Friday due to the lack of drivers. We've been advertising for additional drivers for several months now and no one has volunteered to assist, so as a result, we are forced to cut back our driving service to 3 days a week.

If you need transportation, contact the American Legion Van Transportation System Dispatcher, Adrienne Jones. She schedules transportation for appointment rides to the VAMC and any other doctor or medical facility that can be reached within a reasonable amount of time.

Please have your information concerning your appointment ready when you call along with the last 4 of your social security number and answer other questions she may have in order to keep all of the transportation records current.

Please remember Adrienne is a volunteer for this service and only call her between the **hours of 8:00 AM and 6:00 PM** with your appointment information at least 48 hours prior to your appointment.

Her number is 828-442-6334.
